13th WORLD FESTIVAL OF YOUTH AND STUDENTS

Pyongyang Festival Will Be A Grand International Gathering

With the oncoming 13th World Festival of Youth and Students, concern and expectation of the countries are growing with each passing day.

Noting that the 13th WFYS had a great significance in the history of development of the world youth movement, Secretary in charge of International Affairs of the Union of Young Communists of Cuba said:

The Festival has great significance for it is to be held for the first time in Asia and, in particular, in Pyongyang, capital of the Democratic People's Republic of Korea that is struggling to defend peace and security of the world.

Through the visit to your country, we have come to have a firm conviction that the 13th WFYS would surely be successful.

Deputy Secretary General of All-African Students Union said that the attention of the whole youth and students of Africa are directed to Pyongyang, capital of the Democratic People's Republic of Korea, a symbol of independence and peace and the dignified member state of non-aligned movement.

The Pyongyang Festival would greatly contribute to demonstrating the united strength of the youth and students of 5 continents fighting against imperialism to achieve peace and independence and to developing the world youth and students movement to a higher stage.

Secretary General of All-India Youth Federation said:

I paid a visit to Pyongyang. I was greatly moved to see the Korean youth and students and people busying themselves with preparation for the Festival.

During the Festival the world youth and students will have clearer understanding of Korea and the aspiration of its youth and students to achieve peaceful reunification of their country against war.

Secretary of the Central Committee of the Lenin Young Communist League of the Soviet Union said that, during the Festival to be held in the summer of 1989 in Pyongyang, capital of the DPRK, slogans reflecting the idea of the Festival "For Anti-

Imperialist Solidarity, Peace and Friendship!" would be shouted loudly.

He added that Pyongyang Festival, a grand international gathering of the youth and students of 5 continents, whose idea, political view and religion differ from each other, would greatly contribute to strengthening the friendship and solidarity of the world's youth and students and defending the world's peace.

Chief of the Youth Department of the General Council of the Trade Union of Japan said:

During our visit to Pyongyang we could not suppress our emotion seeing many structures built for the Festival such as modern sports facilities in Chongchun Street and the Rungrado Stadium.

I am sure that all these will meaningfully adorn the 13th WFYS and contribute to the convenience of the Festival participants.

Extending thanks to the Korean youth and students and people for their efforts for the Festival under the wise leadership of the great leader President Kim Il Sung, Secretary in charge of International Affairs of the General Union of Palestine Students said:

Pyongyang Festival has a great significance in opposing war and defending peace — the most urgent problem in the present international political theatre.

Therefore, we as the fighters on the forefront of the struggle against imperialism, Zionism and racism, will do our best for the success of the Festival together with the world youth and students.

Director of a department of the Youth Communist Organization of Greece emphasized that the Pyongyang Festival would be a greatest international gathering of the world youth and students. We would always stand, he said, by the side of the Korean people in their efforts to achieve the peaceful reunification of their country.

Saying that Korea was stepping up preparation for the Festival, Secretary General of the National Preparatory Committee of the Congo noted:

We have formed the National Preparatory Committee for the Festival with Denis Sassou

Chondaehyop of South Korea Accepts Invitation to Participate in Pyongyang Festival

The Korean Preparatory Committee for the 13th World Festival of Youth and Students and the Korean Students Committee on December 26 last year sent a letter to the "National Council of Student Representatives" (Chondaehyop) of south Korea, inviting south Korean youth and students to the Pyongyang Festival.

Upon receiving the letter, Chondaehop decided to take part in the 13th World Festival of Youth and Students slated for July in Pyongyang and asked on January 20 the south Korean Red Cross to convey its reply letter to the Korean Students Committee.

But the south Korean Red Cross did not deliver the letter to our side without any proper reason till ten days after it was entrusted with the letter of Chondaehyop. Therefore, on January 31 the Korean Students Committee sent a telephone message to the south Korean Red Cross to speedily deliver the letter. And Chondaehyop requested repeatedly the south Korean Red Cross to convey its reply letter to the Korean Students Committee.

The south Korean Red Cross handed this reply letter of Chondaehyop over to our side through Panmunjom on February 24 after a month.

The reply letter says:

We know well the fact that a festival aimed at strengthening friendship and unity among world youth and students and stirring up the anti-war, anti-nuclear peace sentiments will be held in Pyongyang this year, and fellow students in the north are striving hard to make this function successful.

And we have received with pleasure the letter sent by you to invite us youth and students to the Festival. We who desire peace and reunification more than anything else as we have lived in a divided country so long are convinced that the 13th World Festival of Youth and Students will be an

epochal turning point in achieving national reconciliation and unity and national reunification and tell you that we accept with pleasure your invitation to participate in the Festival. It is only too natural that we youth and students in the south, brothers and sisters of one and the same blood, who should stand in the van for the national reunification with you should participate in the Pyongyang Festival. Moreover, the banner of

"Anti-Imperialist Solidarity, Peace and Friendship" put up by the 13th World Festival is cherished demands of the people, youth and students in the south, nay, the 70 million fellow countrymen in the north and the south and abroad.

"Anti-Imperialism and Peace" is a just and right banner for paving the way of our nation at this moment when it is undergoing sufferings in the country divided due to the imperialist domination and interference and is not free from the fear of confrontation and war.

And we believe that our participation in the Festival will make a great contribution to removing long mistrust and confrontation between the north and the south and actually promoting the task of national reunification. The desire for reunification has mounted considerably and dialogue and contact between the north and the south gained momentum thanks to the concerted efforts of the students in the north and the south for the realization of historical north-south student talks last year. A substantial success, however, has not yet been achieved for peace in the country and its reunification. Under such situation, the military tensions and the danger of nuclear holocaust are increasing on the Korean peninsula with each passing day. For the students in the north and the south who will be the masters of a reunified country to take the lead in bridging over the grave situation

Sochongryon Responds to Invitation to Pyongyang Festival

The Seoul District Federation of General Student Councils (Sochongryon) made public a statement clarifying its stand regarding the invitation of patriotic youth and students in the south to the 13th World Festival of Youth and Students scheduled in Pyongyang extended by the Korean Preparatory Committee for the Festival and the Korean Students Committee in their letter sent on December 26 last year to the "National Council of Student Representatives" of south Korea (Chondaehyop), according to the February issue of the south Korean magazine *Wolgan Hurum*.

The statement extends active support and cheers to the proposal to sit together in the joint jubilee of the nation in wholehearted response to the earnest solemn call of the brothers and sisters in the north resounding all over the country, deeply cherishing the precious lesson of desire for reunification.

The statement stresses:

Sochongryon welcomes and hails with both hands the idea of the 13th World Festival of Youth and Students — anti-imperialist solidarity, peace and friendship.

We of Sochongryon are convinced that anti-imperialist solidarity, peace and friendship, the basic idea of the 13th World Festival of Youth and Students, is the banner of a very reasonable and just struggle from the viewpoint of the vital

and opening wide the road of peaceful reunification is a natural requirement of the national history and our participation in the forthcoming Pyongyang Festival will be a good occasion.

When the students in the north and the south sit at one place and, with emotional tears in their eyes, stand together for a hopeful reunified country, it will lead to a great unity of the 70 million fellow countrymen and deprive the groups obstructing the reunification of our nation of any deceptive pretext.

We, renewing the determination of our youth and students to take part in the Pyongyang Festival which will bring the dawn of national reunification, have the pleasure to present a few requests and proposals to you.

Firstly, we ask you to send us some information on the 13th World Festival of Youth and Students so that our youth and students may understand it in detail and prepare for it. We shall be grateful to

demand of mankind for common development and from the Juche-based stand for hewing the path of national revival.

If the traitor Roh Tae Woo has the real intention to reunify the country, he must immediately renounce the plan for the permanent split of the nation motivated by the "Two Koreas" plot and spare no versatile assistance to Chondaehyop so that it may participate in the 13th World Festival of Youth and Students which will serve for and contribute to the realisation of the independent and peaceful reunification of the country.

And he must spare no assistance and efforts for organizational guarantee of all dimensions, instead of defending the trite doctrine of national split with such deceptive rigmaroles and sophism as "single-channelled dialogue," argument about "authenticity of representation" and "disapproval of political exchange" as regards the participation of Chondaehyop in the Pyongyang Festival. We warn in advance that if he ventures a provocation with sanguinary suppression again as in the June 10 and August 15 cases, he will face a stern judgement by all the fellow countrymen and history and the situation will take such a turn as to force him to step down from power in face of a crisis of awful catastrophe.

you if you send us materials on the festivals held in the past period and detailed preparations for the Pyongyang Festival and so on.

Secondly, the third term of our Chondaehyop will start after the expiration of its second term within February. As regards working talks for participation in the Festival and the composition of a delegation for the talks, therefore, we will inform you of the specific date, place, method, ect. through the third Chondaehyop.

In conclusion, we hope to keep in touch with you through continued correspondence and, through this medium, reach an agreement on the mode of the participation, topics and agenda items of working talks before their start.

If we unite our strength, there will be nothing impossible. Let us realise, therefore, our meeting that failed on June 10 and August 15 and discharge the historic mission entrusted to us, the future of a reunified country, by the nation.

“Team Spirit” Joint Military Maneuver Denounced

Under the auspices of the Central Committee of Mongolian Revolutionary Union of Youth, a rally of youth was held in the University of Agriculture in Mongolia on February 20 to support the 13th World Festival of Youth and Students and denounce the “Team Spirit” joint military manoeuvre.

First Secretary of the C.C. of the Mongolian Revolutionary Union of Youth said as follows in his speech:

We attach a great importance to the 13th WFYS, the first of its kind in Asia, and are hastening its preparation; socialist emulation drives are being conducted along with collecting the Festival funds in provinces and cities.

The fraternal people of Korea are constructing more than 260 structures to be used for the Festival with an enormous amount of money, and are accelerating preparation for the Festival to have it on the highest level according to the program.

But, at this time, the United States and south Korea are staging the “Team Spirit” joint military exercises. This has a bad effect on the work to prepare the Festival and the situation on the Korean peninsula.

The Mongolian youth denounce scathingly this criminal act of the authorities of the US and south Korea and demand them to stop it at once.

Adopted at the rally was the statement of the Mongolian National Preparatory Committee for the 13th WFYS.

The statement pointed out that staging such military exercise at an important time when the 13th WFYS will be held in Pyongyang, the capital of the DPRK, for the first time in Asia, ran counter to the principle and aim of the festival movement and threatened the peace and security of the world.

It stressed that the Mongolian youth and students vehemently denounced it, reaffirming the Mongolian youth's active contribution to the festival movement and their cooperation with the world youth and students.

Such meetings were held in local cities in Mongolia.

of Its Kind in Asia" and "For the Peace and Reunification of Korea", it informed the readers that preparation for the 13th WFYS in Korea was being made at the final stage and the Festival became a matter of great concern of the world's progressive people and the south Korean youth and students who were bravely fighting for independence, democracy and reunification.

The World Festival of Youth and Students is held, it said, by the world youth and students with the aim of opposing war, defending peace and building a new society, irrespective of differences of idea, political view, religious belief and system.

The Pyongyang Festival is expected to be held on the largest scale in the history of the festival. It will powerfully demonstrate the united strength of the youth and students who safeguard the peace of the world, independence and justice.

It will be a large-scale international function of great significance reflecting the demand of the present time and desire of the youth and students of different countries of the world.

That is why the Democratic People's Republic of Korea is pushing ahead with its preparation for its success under the far-sighted plan of President Kim Il Sung and the energetic guidance of His Excellency Kim Jong Il.

Greeting the sixteenth of February, Pyongyang is hastening the preparation with much vigour.

“Festival in the DPRK Is of Special Significance to the US Young People”

Gus Hall, General Secretary of the Communist Party of the United States of America, answered written questions raised by a reporter of the Democratic People's Republic of Korea on the 13th WFYS.

In his answer he said:

The upcoming 13th World Festival of Youth and Students in Pyongyang will make an important contribution to saving our planet from nuclear and environmental destruction, curbing the power of US imperialism and bringing great friendship among the youth of the world, especially between US and Korean young people.

A very significant feature of the 13th Festival is fact that it will be the first one ever held in Asia, a continent representing nearly two-thirds of the world's population.

Those who go will have the pleasure of seeing the incredible advance made under socialism by the Korean people.

The festival participants will also see one of the most modern cities in the world and know the feature peculiar to the Korean way of socialism.

The delegates of each country will be accorded a warm welcome of the Korean people and youth during the Festival.

The Korean youth and people have worked hard to prepare for an exciting festival. New construction, buildings, hotels, stadiums and the thousands of activities will make this a memorable experience.

The US youth who participate in the 13th WFYS will represent the most wonderful new generations of the country and all of them are young students, officials of the Trade Unions and activists for peace, environment and the movement of anti-racism and democratism.

The US delegation will reflect the multiracial and multi-national diversity of our people; black, white, and native-American.

The Festival will be an expression of important

solidarity with the movement of youth and students of the United States.

Through the Festival the relations between youth and students of many countries will grow stronger and they will know well the world events, especially Asian questions and their developments.

A festival in the DPRK is of special significance to the US young people.

Korea is divided owing to the sanguinary aggressive manoeuvres of US imperialism and 1,000-odd nuclear weapons are deployed in south Korea where the nearly 50,000 strong US armed forces are occupying.

The US young people will play a vital role in helping to bring home the troops and destroying the missiles and developing normalized relations between the United States and the DPRK. It will help create the possibilities for the Korean people to determine their own future.

Korea's peaceful reunification not only constitutes the most important question to the people in the north and the south but also coincides with the interests of the world people including the US people.

The DPRK has put forth the proposals for easing the tension on the Korean peninsula and creating a nuclear-free zone, holding talks between the north and the south and tripartite talks and changing the armistice agreement into the peace agreement and other various proposals and plans.

The Communist Party of the USA supports these reasonable proposals which are making an important contribution in the struggle for peace.

We condemn the “Team Spirit” military manoeuvres held annually as a provocation increasing the danger of war.

The US armed forces, nuclear weapons, the US armed bases and military equipments—the main obstacle to the peaceful reunification of Korea must be withdrawn unconditionally from south Korea.

The Preparation Is In All the Rage

The grand national festival of the Korean youth and students is being briskly held from November last year in all parts of our country for the 13th World Festival of Youth and Students with the participation of 8 million.

It is designed to get the youth and students to play the role of vanguard and shock brigade in an effort to create an atmosphere of the 13th WFYS in the whole country and ensure the material preparation for the Festival and thus bring about a new turn in its preparation.

Divided into political festival, art festival, sports festival and economic festival, the national festival is held by the branch and primary organizations, city (district), county, provincial and central committees of the League of Socialist Working Youth of Korea.

The political symposium, youth forum, question-and-answer contest, foreign languages conversation contest, making-a-good-guess contest, meeting for introducing experiences are organized in the political festival.

Over 4,069,000 youth and students have so far taken part in the political symposium and over 2,189,000 took the floor.

Various problems such as "Task of the youth and students for peace, armament reduction and nuclear-free world" were discussed in the political symposium.

Art festival is going on in diverse forms—contest of songs sung in the wartime, light music contest, folk art contest, handicraft exhibition and contest of skill of fine artistes and folk-play contest.

The handicraft exhibition and contest of skill of fine artistes are most conspicuous.

Embroidery, works of stone, metal, wooden, pottery, glass, horn, grass, ivory, Mannyonhwa and other

fine objects of craft and art have been appraised highly.

Children, youth and students' sports contest for the "cup of anti-imperialist solidarity, peace and friendship" and their relay race for "Pyongyang Festival-1989 Prize" are being held with a large attendance as a sports festival.

The sports festival includes the games of football, basketball, volleyball, table-tennis and callisthenics.

As for the economic festival, a competition is being held for the production of goods and materials for winning the "13th Pyongyang Festival Victory Banner", socialist emulation drives "to build up my village and my workshops" for the "Prize of Bellflower", exhibition of technical innovation and goods made by the youth for the "Pyongyang Festival Prize" and a national exhibition of skill of children for the "Prize of happiness-1989".

On show at the children's skill exhibition which was held in the cities, counties and provinces were more than 42,000 items including paintings, embroideries, various calligraphies, pottery wooden and stone works, sculptures and models of equipment and machine parts.

Among them, 3,230 items were highly evaluated and selected for the central competition.

The children's skill exhibition shows well an aspect of happy life of our children who are growing vigorously as masters of the future giving full play to their talents and wisdom.

Grand national festival is in all the rage with the sincere efforts and active participation of youth and students and LSWY organizations throughout the country.

It continues till April.

“The Future Masters Are Youth and Students”

Song for the 13th WFYS “The Future Masters Are Youth and Students” is widely sung by the youth and students in all parts of our country.

This song has been composed to reflect in a congratulatory coloring the desire of the youth and students to make the Festival a grand and significant one in the history of the Festival movement and an arena of demonstrating their united strength with which they struggle for independence, peace and friendship.

The WFYS was originated from the idea to build a new prosperous peaceful world and, with the days go by, it attracts the attentions of the youth and students and people across the world.

Every stanza of this song carries the warm and sincere hearts of our people and the world people to hold the 13th WFYS splendidly in keeping with the idea of the world festival movement of the youth and students.

Both the song’s words and melody mirror clearly the will and determinations of our people and the world’s youth and students who, firmly united, are advancing with the idea of “For Anti-Imperialist Solidarity, Peace and Friendship.”

Today, the common historical task facing the world people is to build a new independent and peaceful world.

The youth and students who represent the future of mankind should stand in the van of this struggle. They should never leave mankind to be a victim to the criminal nuclear war of the imperialists.

Reflecting such demand of the times, this song strongly emphasizes that the unity and cooperation is the source of power and guarantee of victory.

The auspicious days of the 13th WFYS are drawing near. Pyongyang is waiting for the foreign friends, loudly singing “The Future Masters Are Youth and Students,” optimistic, rhythmical and appealing.
